

Shure SM58

# SHURE®

## Vocal Microphone

The Shure SM58® unidirectional (cardioid) dynamic vocal microphone is designed for professional vocal use in live performance, sound reinforcement, and studio recording.

It has a tailored vocal response for a sound which is a world standard for singing or speech.

A highly effective, built-in spherical filter minimizes wind and breath "pop" noise.

A cardioid pickup pattern isolates the main sound source while minimizing unwanted background noise.

Rugged construction, a proven shock-mount system, and a steel mesh grille ensure that even with rough handling, the SM58 will perform consistently, outdoors or indoors.

## FEATURES

- Frequency response tailored for vocals with brightened midrange and bass roll off
- Uniform cardioid pickup pattern isolates the main sound source and minimizes background noise
  - Pneumatic shock-mount system cuts down handling noise
    - Effective, built-in spherical wind and pop filter
  - Supplied with break-resistant stand adapter which rotates 180 degrees
    - Legendary Shure quality, ruggedness and reliability
      - Cardioid (unidirectional) dynamic
      - Frequency response: 50 to 15,000 Hz
      - Replacement cartridge: R59
