

# FENDER THINLINE '69 TELECASTER GUITAR

The semi-hollow-body design was originally an attempt to reduce the weight of the solid-body Telecaster guitar; the f-hole being the most apparent visual clue to its construction. With its reshaped pickguard, the '69 Telecaster Thinline is a lightweight addition to the Tele family, but with heavyweight feel and tone.

**Model Name** '69 Telecaster® Thinline

**Model Number** 013-6902

**Series** Classic Series

**Colors** Natural, (with Mahogany Body,  
(Polyester Finish)

**Body** Lightweight Semi-Hollow Mahogany Body, (Ash on (300)\* Sunburst)
